EDUCATION

B.E ECE - Sri Eshwar College of Engineering CGPA: 7	2023-2027
HSC - Adharsh Vidhyalaya Matric Higher Secondary School 77.5%	2021-2023
SSLC - Adharsh Vidhyalaya Matric Higher Secondary School 84.2%	2020-2021

INTERNSHIP

RAMPEX – Java Full Stack Intern	2024
--	-------------

I developed dynamic and scalable web applications using React.js, implementing modular components for seamless user interactions. I collaborated through GitHub for efficient version control and agile project workflows, while strengthening backend integration using Node.js and MongoDB to enhance overall user experience. I also gained hands-on exposure to state management, React Hooks, and component lifecycle in production-level environments.

RAMPEX – MERN Stack Intern	2025
-----------------------------------	-------------

I built and optimized full-stack applications leveraging Java, Spring Boot, and SQL for robust backend development. I collaborated in agile teams using GitHub for version control, ensuring smooth project management and code quality. Additionally, I implemented efficient APIs, improved application scalability, and enhanced automation workflows to optimize overall performance.

PROJECTS

Learn with Joy - (React.js, Node.js, Express.js, MongoDB, Tailwind CSS MERN Stack):	[GitHub] 2025
--	--------------------------------------

Developed a modern e-learning platform using React.js, Tailwind CSS, Node.js, and MongoDB, featuring secure user and admin authentication, course previews, and access to free content. Integrated interactive features such as note-taking, a shopping cart with payment handling, and AI-driven course recommendations with progress tracking. Designed a scalable, API-first architecture to ensure seamless frontend-backend communication and deliver a personalized learning experience.

Smart-Step - (C++, ESP32, React.js, Spring Boot, MySQL IoT + Java Full Stack):	[GitHub] 2025
---	--------------------------------------

Developed an IoT-based system that tracks animal rest and activity using ESP32 and an MPU6050 accelerometer, storing data locally and transmitting it via proximity-based Wi-Fi. The backend, built with Spring Boot and MySQL, processes and stores the data for real-time analysis. The solution supports early illness detection and improves monitoring farm environments.

Music-Healer - (Spring Boot, PostgreSQL, JWT, Docker Java Full Stack):	[GitHub] 2025
---	--------------------------------------

Developed a full-stack music streaming web app using React.js, Tailwind CSS, and Spring Boot with JWT authentication and MySQL. Implemented seamless playback (play, pause, shuffle, repeat, next, previous), real-time tracking, and user-specific favorites and playlists. Built a responsive, interactive UI with smooth navigation and persistent sessions for a personalized listening experience.

SteelSense - (ESP32, React.js, Spring Boot, SQL, MongoDB, Tailwind CSS IoT + Java Full Stack):	[GitHub] 2025
---	--------------------------------------

Built an IoT-based furnace moisture monitoring system using ESP32 integrated with DHT11 and soil moisture sensors. The system measures real-time temperature, humidity, and moisture levels, sending data to ThingSpeak cloud and Telegram for alerts. It enhances furnace safety, enables predictive maintenance, and supports sustainable industrial operations.

CERTIFICATIONS

Mastering Data Structure and Algorithms Using C and C++ Udemy	2024
SQL Basic HackerRank	2024
Fundamental Algorithms: Design and Analysis NPTEL	2024
Red Hat Application Development I: Programming in Java EE (AD183) Red Hat Academy	2024
Learning React Infosys Springboard	2025
Learn JAVA Programming – Beginner to Master Udemy	2025
Mongo DB Infosys Springboard	2025
JavaScript for Beginners Complete Course Infosys Springboard	2025

CODING PROFILES

Leetcode : **Solved 260+ problems** | **Max Rating : 1,586** | **Contest Attended : 30+** | [Dharaneeshguhan](#)

Hacker Rank : **3 Star C, 2 Star Java, 2 Star Java ,SQL** | [dharaneeshguhan1](#)

Codechef : **Problem Solver - Bronze Badge** | [dharaneeshguhan](#)

Skill Rack : **Solved 650+ problems** | **Received 2 certificates** | [link](#)

SKILLS

Programming - C | C++ | JAVA |

Core Concepts – Data Structures & Algorithms (DSA) | Object Oriented Programming | DBMS |

Web Technologies - HTML | CSS | JavaScript | React.js | Node.js | Express.js | Spring Boot |

Database – PostgreSQL | MySQL | MongoDB |

Tools - GitHub | VS-Code | IntelliJ IDEA | Postman | Eclipse | MySQL Workbench |

Other Skill's - REST APIs | CRUD Operations | Deployment (Render, Netlify) |
